## The Clock is Ticking

“Ransacking pristine forests, manipulating food supplies with genetically modified ‘terminator seeds’, vandalising sacred lands and exploiting the nature the world over; there are no limits to what big businesses do to turn a profit.”

*Elaine Smitha in her book Screwing mother nature for profit.*

## Screwing Mother Nature for Profit

Academy of Finance as a socially responsible organisation strongly believe that while coaching the professionals to drive profits and create wealth, they should also be enlightened; this does not mean that every aspect of a company's performance can - or should be reduced to a 'common currency' of money values.

Everything  
is Connected

Whatever befalls the earth befalls the sons of the earth. Man did not weave the web of life : he is merely a strand in it. Whatever he does to the web, he does to himself.

*In 1854, Chief Seattle, under pressure to sell their lands to the Government.*

What happened thereafter is all history and we have learnt the lessons the hardest way.
